GENERAL INFORMATION

Western University is composed of three units, the College of Arts, the Medical School and the Institute of Public Health; affiliated with the University is one theological College, viz., Huron.

By the 1908 amendments to the act incorporating Western University, it was stipulated that the government of the University should be absolutely undenominational and be under public, municipal, or provincial control or any or all of these.

DEGREES

By its charter Western University may confer degrees in Arts, Medicine, Science, Agriculture, Law, Education and Theology, upon persons who, having complied with the requirements prescribed, are admitted to such degrees by the Senate.

The degrees at present conferred by the University are:

1. Honorary Degrees: *Doctor of Divinity;
Doctor of Science; Doctor of Laws.
2. Degrees by examination: Bachelor of Arts (B.A.); *Bachelor of Divinity (B.D.); Master of Arts (M.A.); Doctor of Medicine (M.D.); *Doctor of Divinity (D.D.).

ACADEMIC COSTUME

The degrees have their distinctive costume as follows:

Gowns

For Bachelor's degree, Cambridge shape with long pointed sleeves, of black worsted stuff, untrimmed, open or closed. For Master's degree, Cambridge shape with long closed sleeves, of black worsted stuff or silk, untrimmed, open or closed. For Doctor's degree, Cambridge shape with round open sleeves, of black worsted stuff or silk, open, with facing down the front of black velvet with three bars of black velvet across each sleeve; or with the facing and bars of the color of velvet that by convention pertains to the faculty in which the degree has been obtained, viz.:

Arts—white.

Medicine—dark green.

Science—gold yellow.

Laws—purple.

Theology—scarlet.

*The degrees so indicated can be conferred by the University only on the recommendation of an affiliated theological college. The last degree, Doctor of Divinity by examination, is under the jurisdiction of the Board of Theological Colleges of the Church of England in Canada.

Hoods

Hoods shall be of the usual pattern, same material as the gown, black, length proportioned to the figure, maximum being three feet long for Bachelors, four for Masters and Doctors; the latter also have panels at the sides.

The edging or binding shall be of velvet of the color distinctive of the faculty granting the degree. (See above under gowns).

The lining of the hood shall be of silk of the official colors of the University, purple and white, arranged thus: purple background with two chevrons of white.

Caps

Caps shall be mortar-boards, black, of serge or broad-cloth, with black tassel. The Doctor's cap may be of velvet. The tassel on the Doctor's cap may be altogether or half of gold thread.

GENERAL REGULATIONS

ADMISSION

1. Candidates shall be admitted to the General Course in the College of Arts who present certificates of full Departmental Junior Matriculation or its recognized equivalent, as in section 7 (a) below. A medical examination must be passed by all students.

2. Candidates presenting certificates of Departmental Junior Matriculation or their recognized equivalents, lacking not more than two subjects, may be admitted to the General Course, but must complete matriculation requirements before entering upon any work of the Third Year.

3. Candidates presenting certificates of Honor Junior Matriculation in one or more subjects or their recognized equivalents may be credited with First Year standing in the General Course in all subjects corresponding to their certificates except the laboratory courses in the sciences.

3 (a). Candidates for First Year standing in the General Course may be credited with the laboratory work in any of the sciences upon recommendation of the professor concerned, provided (a) note books are submitted in which the practical work has been recorded, and in addition (b) a certificate from the Principal of the High School or Collegiate Institute, stating that the records submitted are the results of the student's own work, and that the work performed and described represents, in the case of each science, at least one hundred hours of laboratory instruction and practical work in the Upper School.

4. The subjects of Junior Matriculation are as follows: Latin, English, History, Mathematics, and any two of the following: Greek, French, German, Experimental Science.

Note—Students registered with theological bodies may present First Year Hebrew in lieu of one optional subject.

5. The pass standard for admission is forty per cent. in each subject. The first-class honor standard is seventy-five per cent., the second-class honor standard sixty-six, and the third-class fifty per cent.

6. Candidates seeking admission on certificates other than those mentioned above must present official evidence of their academic standing to the Registrar, after which their standing in this University shall be determined by the Committee on Academic Standing.

N.B.—Students are advised to mail their qualifying certificates to the Registrar at least **two weeks** before the date of registration. After the committee has determined

the admission value of these certificates they will be returned to the candidates.

7. (a) *Equivalents pro tanto* of Junior Matriculation are:

Ontario	Entrance to Normal School.
Prince Edward Island	Second Class.
Nova Scotia	Grade XI.
New Brunswick.....	Second Class.
Quebec	Academy Grade III.
	University School AA.
	Model School Diploma (75%).
Manitoba	Second Class.
Alberta	Grade XI.
Saskatchewan	Grade VII.
British Columbia	Intermediate.
Newfoundland.. .. .	Intermediate (50% required).

(b) *Equivalents of Honor Junior Matriculation* are:

Ontario	Entrance to Faculty of Education.
Prince Edward Island	First Class.
Nova Scotia	Grade XII.
New Brunswick	First Class.
Saskatchewan	Grade VIII.
Alberta	Grade XII.
British Columbia	Senior Academic.
Newfoundland	Associate (75%); but allowance on Associate examinations will be given only in English, Latin, Greek and French).

SPECIAL STUDENTS

8. Special Students who are not candidates for a degree may be admitted to classes in the University if, in the opinion of the professors in charge, they are qualified to pursue satisfactorily the courses chosen. Such special students must satisfy the professors in regard to regular attendance and attention to the work of the class. They will not be allowed to advance from year to year in a department without taking the regular examinations. Non-matriculated special students will not be admitted to more than twelve credit hours of work in any year.

9. Special Students may, at the beginning of any college year, on presenting qualifications for admission, be allowed to enroll as regular students and become candidates for degrees subject to the regulations governing such students. The work satisfactorily passed by them as special students will be put to their credit for the degree of B.A.

ADVANCED STANDING

10. All applications for admission "*ad eundem statum*" and "*ad eundem gradum*" must be accompanied by official certificates of standing from the institutions where previous work has been done. These applications shall be referred to the committee on Academic Standing.

EXTRAMURAL STUDENTS

11. For sufficient reasons, students may, on application to the Senate, be allowed to enter upon or pursue the work of the courses, and to present themselves for examination at the appointed time; without attendance upon classes; but such extramural candidates for degrees must, before being enrolled, present certificates of Departmental Junior Matriculation in Arts, or equivalents (as in section 7 above). Provision may be made by the Senate for examination of extramural students at a local centre, the cost of the examination to be defrayed by the candidates. Extramural students are subject to a special fee of ten dollars, to be paid annually at the time of registration. Extramural candidates for degrees must, if registered for the first time later than 1916, have attended upon lectures in this or another university for at least one year. For the details of this course see page 37.

THE B.A. GENERAL COURSE

12. Candidates in the General Course in Arts shall be ranked in order of merit in each subject in the annual class lists in three grades, A, B, C; the minimum for grade A shall be seventy per cent. of the marks, and for grade B fifty-five per cent.; all who pass with less than fifty-five per cent., but not less than forty per cent. (the minimum for pass), shall be placed in grade C. But no student will be admitted to the degree of Bachelor of Arts (General Course) who has not obtained grade C on all the prescribed and elective work of his course, and who has not obtained grade B on at least half the credit hours required for his degree and grade B on half the credit hours of the senior year.

13. In all subjects of the General Course, except the Sciences, the ratio of term-work marks to examination marks will be as fifty to one hundred. To pass, a student must obtain forty per cent. on the whole of a subject, with forty per cent. both in the term work and in the examination. In an Honor Course and in the Sciences the ratio of term-work marks to examination marks is determined by the teaching staff in that subject. Term work will not be credited to a

student beyond the year in which it is taken, if he has to pass a supplemental examination.

14. Students in the General Course who have not attended at least **ninety** per cent. of the lectures for the term in a course shall be debarred from taking the sessional examination on that course.

15. Sessional examinations will be held for the general Arts courses in January and in May. The student must obtain the required percentage, at least forty, both for the first and for the second term's work in each course. Examinations will be held in May for those who have failed in the first term; in September for those who have failed in the second term's work or in the year's work in any course. Students conditioned at the May examination will be expected to attempt to remove their conditions at the September examinations following.

16. Students failing to obtain forty per cent. on the supplemental examination in a course shall not be eligible for re-examination without a further year's attendance on the lectures in the course in which they have failed.

17. In subjects where each year's work depends directly upon that of a preceding year, no student who has failed may take up the work of the following year. The application of this rule shall rest with the committee on Academic Standing.

18. A student, who, at the close of the September supplemental examination, has not obtained standing in at least two-thirds of the credit hours of the year, shall not rank as a student of the succeeding year.

19. For sufficient reasons, a student may, on application to the Senate, be permitted to present himself for an examination in a course without previous attendance upon classes.

20. When a candidate at an examination is starred in a course which is one of two or more courses between which an option exists at the said examination, the candidate at his supplemental examination may present himself in any one of such alternative courses if he has complied with the condition laid down in section 19.

21. A student who has not been granted complete First Year standing may not enter upon any work of the Third Year; nor a student, who has not been granted complete Second Year standing, upon any work of the Fourth Year.

22. No credit towards a degree will be given for the first year of a foreign language unless that year is followed by a second year in the same language.

23. No optional course need be given unless it is elected by at least two students.

B.A. SPECIAL COURSES

These courses, by agreement with the Department of Education of Ontario, lead to High School Assistants' and Public and Separate School Inspectors' Certificates.

24. Academic Standing.

(1). A candidate, who in 1917 or thereafter, begins a course for the academic standing of a High School Assistant or a Public or a Separate School Inspector in Ontario, may have his standing approved therefor by the Minister of Education, provided he holds a degree in Arts and submits a certificate from the Registrar that he has complied with the requirements of the agreement between the Department of Education and the Western University in regard to the courses and examinations prescribed.

(2). If in 1917 a candidate has already completed any of the years of the course for the academic standing of a High School Assistant, he may, with the Minister's approval, complete his course for said standing by taking the additional courses and examinations as prescribed in the Calendar of the University for 1916-17 and by passing the examination for a professional certificate not later than 1923.

25. Matriculation.

A candidate shall have matriculated under the regulations in force in 1917.

26. Courses.

(1). A candidate for a High School Assistant's certificate under the regulations prescribed herein may take either of the courses detailed below (pp. 35, 36).

(2). A candidate for a Public or Separate School Inspector's certificate under the regulations prescribed herein shall take Course II, as prescribed below (pp. 36)

(3). The course of a candidate for either certificate shall extend over at least four years and he shall attend the University classes for at least two years, one of which shall be the regular session of the Fourth Year and the other year shall be one of the other regular sessions.

(4). Candidates presenting certificates of Faculty Entrance or of Honor Junior Matriculation in one or more subjects may be credited with First Year's standing in the subjects corresponding to their certificates except the laboratory courses in the Sciences.

27. Percentages.

(1). A candidate for the academic standing of a High School Assistant in either course I or course II, shall obtain at least 40 per cent. in each subject and an average of 60 per cent. on the subjects of each year.

(2). A candidate for the academic standing of a Public or Separate School Inspector shall obtain at least 50 per cent. in each subject of Course II, and an average of 66 per cent. on the subjects of each year.

28. Registrar's Certificates.

The certificates submitted from the Registrar shall in all cases set forth the details and shall be subject to the Minister's approval.

THE B.A. EXTRAMURAL COURSE

Extramural courses shall be of two kinds (a) Complementary Extramural Courses and (b) Pure Extramural Courses.

29. Complementary Courses.

(a) A complementary Extramural course is the extramural complement of one summer term course and must be completed at the May examinations of the winter session following the summer term attended. Only by fulfilling this condition is it possible for a student to proceed to the more advanced courses offered in the summer or winter terms.

(b) Each summer term course together with its complementary extramural course shall be equal in credit hours to the B. A. General Course subject that corresponds in prerequisite demands and in difficulty to them.

(c) Students are eligible to begin a Complementary Extramural Course upon passing the September examination of the Summer term course of which it is the complement.

(d) A complementary Extramural course has been completed when the student has submitted to the instructor in charge the prescribed exercises, essays, etc., has obtained satisfactory standing therein and has passed the final examination of the course for that year.

30. Pure Extramural Courses.

These courses are independent of attendance upon lectures: they are intended, mainly, for students who have completed four summer terms or their equivalent in the B. A. General Course. Courses in the Sciences, in Mathematics and in any elementary foreign language cannot under

any circumstances be included among these courses. Students pursuing these pure extramural courses are subject to the same regulations in regard to exercises, essays, examinations, etc., as those pursuing complementary extramural courses.

31. Registration.

(a) Registration Day for extramural students is the same as for intramural students.

(b) Extramural students are subject to the same penalties for late registration as intramural students and cannot register at all after Oct. 14th.

32. Examinations.

(a) *Pure Extramural Course* examinations are held at the same time as the Supplemental and the Summer term examinations in September.; also in January and May.

(b) *The Complementary Extramural Course* examinations are held in January and May on such proportions of the work of the course as the instructor may determine.

(c) All these examinations may be held at a local centre if five or more students desire it and guarantee all expenses of the presiding examiner, who shall be appointed by the University.

33. Fees.

(a) The annual Registration fee is ten dollars payable to the Registrar at the time of registration.

(b) The examination fee for the summer term examinations or the September Pure Extramural courses is five dollars. The fee for the other regular examinations of the year, January and May, is five dollars payable in full at the first examination taken.

(c) Examination fees are payable as here outlined if examinations are held at a local centre.

(d) Extramural students shall at the time of registration pay a special fee of two dollars to cover cost of return of exercises and essays and defray cost of correspondence.

(e) Books may be borrowed from the University Library through any local Public Library or they may be had directly from the University Library by depositing a general guarantee of five dollars with the Registrar. This fee, minus deductions for postage, damages and losses, will be returned to the student at the end of the winter session.

THE B.A. HONOR COURSES

34. Honor courses shall extend over four years' registered attendance from date of admission to the First

Year of such course, except in the case of those admitted under sections 39, 40, 41, 42.

35. Candidates presenting certificates of Departmental Honor Junior Matriculation or their equivalent in at least three subjects together with Junior Pass Matriculation in the remaining subjects shall be admitted to the Honor Courses of the First Year in any department in the subjects in which their certificates show that they have obtained at least second class honors (66%).

36. Candidates presenting certificates as in section 35 lacking one pass subject may be admitted to the Honor Courses but must complete Matriculation requirements before entering upon any work of the Third Year.

37. Students who have completed the First Year of the General Course with not more than one star, and who have obtained at least sixty per cent. of the aggregate marks in the work for that year, may enter upon the First Year of an Honor Course in any department in which they have obtained sixty-six per cent. of the aggregate marks in the work of that Department.

38. Students of the General Course who have completed the First Year as in section 37 may enter the First Year of the Honor Courses in Mathematics and Physics if they have obtained said standard in Mathematics of the First and Second Years combined of the General Course.

39. Candidates who have obtained sixty per cent. of the aggregate marks in the work of the First Year General Course together with Analytical Geometry of the Second Year General Course will be admitted to the Honor Course in Political Science and may complete the course in three years.

40. Candidates presenting certificates of Departmental Junior Matriculation with Honors in all subjects or their recognized equivalents may be admitted to the Second Year in any Honor Course in which their certificates indicate First Class Honor standing, except in Mathematics and the Sciences.

41. Students of this University who have completed the First and Second Years of the General Course and who have obtained sixty per cent. of the aggregate of marks in each year may enter upon the Second Year of an Honor Course in any subject in which they obtained sixty-six per cent. of the marks in the First Year of the General Course and seventy-five per cent. of the marks in the Second Year, except the courses in Mathematics and the Sciences.

42. Candidates presenting Faculty Entrance certi-

ificates, Parts I and II, with Honors (75%) in either part, may enter the Second Year of any Honor Course corresponding to their honor certificates, except in Mathematics and the Sciences.

43. In the application of sections 34-42 Normal Entrance certificates are *pro tanto* equivalent to pass Junior Matriculation certificates and Faculty Entrance certificates *pro tanto* equivalent to Honor Junior Matriculation certificates. See also section 7.

44. In the annual class lists the names of candidates who obtain honors in any department or subject shall be arranged in order of merit in three classes; those obtaining seventy-five per cent. and over of the total number of marks being placed in the first class; those obtaining sixty-six per cent. and less than seventy-five per cent. being placed in the second class; and those obtaining fifty per cent. and less than sixty-six per cent. being placed in the third class.

45. The regular examinations will be held for the Honor Courses in May.

46. A candidate pursuing an Honor Course who falls below the third class in his department shall not be allowed standing for the year.

47. A candidate who fails to obtain standing in his Honor Course may receive credit in the General Course on such conditions as the Senate may determine.

48. A candidate who competes for Honors at the examination for Bachelor of Arts, and fails to obtain the requisite number of marks to entitle him to be classed in Honors, may, on the recommendation of the examiners, be awarded a degree without Honors; it being at the option of the candidate to accept the award of such a degree, or to wait until a subsequent examination, and again compete for a degree in Honors.

49. An undergraduate who has obtained Honors in any department may, with the consent of the Senate, be transferred to any other department, and proceed therein; but as a prerequisite to obtaining the Degree of Bachelor of Arts, he must, during his course, have passed the examinations in the subjects of the General Course required in the Honor Department to which he is transferred.

THE B.A., M.D. COURSE

50. Requirements for Admission.

Certificate of complete Junior (Pass) Matriculation with Science Option and Honors in any three subjects of the Honor examination, as issued by the Department of Edu-

cation of the Province of Ontario; or its recognized equivalent (see Section 7).

Certificate of having passed the Honor Junior Matriculation examination or the examination for Entrance to Faculty of Education in any of the following subjects: Latin, English, Mathematics, French or German, shall be accepted for the first year work in these subjects (in the case of Mathematics for that of the first and second years), and such allowance may be made for similar certificates in Physics, Biology and Chemistry as the heads of these departments may decide. See section 3 (a), page 17.

51. Regulations.

1. Conditions in any of the subjects of the B.A., M.D. Course may not be carried in any year past the September supplemental examination of that year.

2. The examination and pass standards in the several subjects of this Course shall be those of the faculties concerned.

N.B.—The pass standard in the Medical School is fifty per cent. in each subject and sixty per cent. on the total work for the year. Candidates obtaining eighty-five per cent. or more in the Science subjects shall have standing of First Class Honors in those subjects. Those obtaining seventy per cent. but less than eighty-five in those subjects shall have standing of Second Class Honors.

3. On satisfactory completion of the Fourth Year of this Course, the Degree of B.A. may be conferred in the General Course, or with Honors, according to the standing of the student in the Science subjects of the Course. Thereafter the student may enter on the work of the Third Year of the Medical curriculum.

THE M.A. COURSE

52. Candidates must be graduates in Arts of this or some other accredited university with not lower than Second Class Honors (66%) in the Third and Fourth Years of a full Honor Course, or must have attained to the standing in the General Course indicated in section 53.

53. Graduates in Arts of this University who in the work of the last two years of the General Course obtained sixty per cent. of the aggregate possible marks, who did not fall below fifty-five per cent. in more than two subjects, and who obtained Grade A rank in at least nine subjects, of which six lie in the College of Arts may be admitted as candidates for the Degree of Master of Arts.

54. Graduates of accredited universities who are candidates for the Degree of Master of Arts in this University must furnish official evidence that they have obtained the Degree of B.A. and that their standing in the

Third and Fourth Years of their course corresponds to the standard of section 53.

55. Candidates may elect a course either (a) of extensive study, or (b) of intensive study.

56. All candidates must be in registered attendance in the College of Arts of this University for one academic year, must take a prescribed course, pass an examination therein and obtain at least Second Class Honors (66%) in it, if it lie in an Honor Department, or seventy-five per cent. if it lie in the General Course. The course may be taken in two academic years at the option of the candidate.

57. A candidate who passes the examinations of the Third and Fourth Years of the major subject or subjects of an Honor Course other than that in which he obtained Honors at graduation, and who obtains Second Class Honors (66%) therein and whose thesis is satisfactory, may be granted the Master's Degree under section 56.

58. A candidate who at graduation obtained First Class Honors in each of the Third and Fourth Years of his Honor Course, whose thesis is satisfactory and who obtains First Class Honor standing in the examination on the prescribed course, may be granted the Degree of Master of Arts with Honors.

59. All candidates shall present theses embodying the result of their own investigation in some department of study approved by the Faculty of the College of Arts.

60. The subject of the thesis must lie in the College of Arts and in that part of his course in which the candidate obtained at least sixty-six per cent. if in an Honor course, or Grade A rank if in the General Course, in each of the Third and Fourth Years of his course.

61. The candidates must register not later than October 14th and submit to the Faculty of the College of Arts, through the Registrar, an outline of the proposed thesis, not later than January 1.

62. If the subject proposed and the outline submitted be adjudged satisfactory, the candidate shall be placed under the guidance of two of the professors in whose departments the subject of the thesis lies, who shall be responsible for conducting the examination and for reporting to the Faculty upon the character of the thesis and the result of the examination. The examination shall be given during the annual May examinations.

63. A type-written or printed copy of the completed thesis, bound in some permanent form, must be in the hands of the Registrar not later than April 1, and must be accom-

panied with the fee of **Twenty Dollars**; **ten dollars** of which will be returned to the candidate if unsuccessful.

64. Upon being approved, the thesis shall become the property of the University.

REQUIREMENTS FOR DEGREES

The system of numbering employed in the designation of courses in this Announcement is this: a course that is usually given to students in the first year of the General Courses is numbered somewhere between 10 and 19; courses for second year students in the General Courses fall between numbers 20 and 29; for third year students in the General Courses between 30 and 39 and for fourth year students in the General Courses between 40 and 49. Courses usually given for first year students in an Honor Course are numbered somewhere between 100 and 199; for second year students in an Honor Course between 200 and 299; for third year between 300 and 399 and for fourth year between 400 and 499. A course given in the first term only is designated by the letter 'a' following the number; in the second term only by 'b' following the number; a number followed by 's' indicates that that course is offered in the summer session. Courses numbered from 1 to 9 are preparatory courses offered in a few subjects for which adequate provision for beginning work is not made in the Collegiates and High Schools of Ontario. Courses indicated by a number followed by 'G' are especially designed to meet the needs of candidates for the degree of Master of Arts. Courses indicated by a number followed by 'E' are for Extramural candidates for degrees. Thus German 30a means a course for third year students and offered in the first term only; Physics 400 is an honor course in Physics open to the fourth year Honor students. Latin 12s is a course offered in the summer session for those with first year qualifications.

THEOLOGICAL OPTIONS

Theological students in affiliated colleges pursuing the General Course are restricted in their choice of options as follows:—

Second Year—History 20 and Philosophy 20 must be taken.

Third Year—Theism and Philosophy 21 must be taken for one of the options.

Biblical Greek (Greek 35) may be substituted for Greek 30 or 40.

Fourth Year—Biblical Greek (Greek 45) may be substituted for Greek 40 or 30.

Church History and Biblical Literature may be substituted for six optional credit hours.

NOTE.—Church History calls for a course of lectures with mid-year and final examinations in the period of early church history (one hour a week) and either the earlier or the later period of English Church History (not less than two hours a week).

Theism, two hours a week. Lectures, essays and examinations

Biblical Literature. Lectures two hours a week for two sessions (total four hours) and examinations.

100a Elementary Botany for Honor students; a lecture and laboratory course dealing with the general principles of Botany, illustrated by selections from the whole Plant Kingdom.

2 lectures and 4 laboratory hours per week; 2 credits.

Prerequisite: full entrance requirements for the Honor course in Biology or Biology 10a.

Text-book: Bergen and Davis, *Principles of Botany*.

100b Elementary Zoology for Honor students; a lecture and laboratory course dealing with the general principles of Zoology, illustrated by selections from the whole Animal Kingdom.

2 lectures and 4 laboratory hours per week; 2 credits.

Prerequisites: full entrance requirements for the Honor Course in Biology or Biology 10b.

Text-books: Parker and Haswell, *Text-book of Zoology*.

Parker and Parker, *Elementary Practical Zoology*.

200 Vertebrate Zoology for Honor students; a lecture course dealing with the structure and evolution of the Vertebrates.

2 lectures per week; 2 credits.

Prerequisite: Biology 100b.

Text-book: Kingsley: *Comparative Anatomy of the Vertebrates*.

200a Phanerogamic Botany for Honor students; a lecture and laboratory course dealing with the structure and evolution of the Phanerogams.

2 lectures and four laboratory hours per week; 2 credits.

Prerequisite: Biology 100a.

Text-book: Coulter, Barnes and Cowles, *Text-book of Botany*.

200b Practical Vertebrate Zoology for Honor students; a laboratory course to accompany Biology 200.

4 laboratory hours per week; 1 credit.

Prerequisite: Biology 100b.

Text-books: Bensley, *Anatomy of the Rabbit*

Parker, *Zoology*

300a Cryptogamic Botany for Honor students; a lecture and laboratory course dealing with the structure and evolution of the Cryptogams.

2 lectures and 4 laboratory hours per week; 2 credits.

Prerequisite: Biology 200a.

Text-book: Coulter, Barnes and Cowles, *Text-book of Botany*.

300b Invertebrate Zoology for Honor students; a lecture and laboratory course dealing with the structure and evolution of the Invertebrates.

2 lectures and 4 laboratory hours per week; 2 credits.

Pre-requisite: Biology 200b.

Text-books: Parker and Haswell, *Text-book of Zoology*.
Petrunkewitch, *Morphology of Invertebrate Types*.

301a Canadian Phanerogamic Botany for Honor students; a lecture and laboratory course dealing with the classification, ecology and economic importance of Canadian Phanerogams.

1 lecture and 3 laboratory hours per week; 1 credit.

Prerequisite: Biology 200a.

Text-book: Gray, *New Manual of Botany*.

301b Canadian Vertebrate Zoology for Honor students; a lecture and laboratory course dealing with the classification, ecology and economic importance of Canadian Vertebrates.

1 lecture and 3 laboratory hours per week; 1 credit.

Prerequisite: Biology 200b.

Text-book: Jordan, *Manual of the Vertebrates*.

302a Cytology, Histology, Organology: lectures, quizzes and laboratory work given during the first term.

9 hours per week.

Prerequisites: completion of second year science of the B.A., M.D. or of the Honor Biology course.

PROFESSOR MCKIBBEN, Faculty of Medicine.

302b Vertebrate Embryology; study of chick and pig material, gross and in serial sections.

9 hours per week for 8 weeks, second term.

Prerequisite: Biology 302a.

PROFESSOR MCKIBBEN.

303a Physiological Chemistry; the chemistry of carbohydrates, fats, proteins: salivary, gastric, and intestinal digestion; bile; muscular and nervous tissue, blood, milk, urine, metabolism.

3 lecture and 8 laboratory hours per week, first term.

Prerequisite: Biology 200 and 200b; Chemistry 10, 21, 22.

PROFESSOR CRANE, Faculty of Medicine.

Text-book: Cramer and Hawk, *Physiological Chemistry*.

400 History and Theory of Biology; a course dealing with the history, theory and problems of Biology.

2 lectures per week; 2 credits.

401a Canadian Cryptogamic Botany for Honor students; a lecture and laboratory course dealing with the

classification, ecology, and economic importance of Canadian Cryptogams.

1 lecture and 3 laboratory hours per week, first term; 1 credit.

Prerequisite: Biology 300a.

401b **Canadian Invertebrate Zoology** for Honor students; a lecture and laboratory course dealing with the classification, ecology and economic importance of Canadian Invertebrates.

1 lecture and 3 laboratory hours per week; 1 credit.

Prerequisite: Biology 300b.

402 **Plant Physiology**, for Honor students; a lecture and laboratory course dealing with the physiology of plants.

1 lecture and 3 laboratory hours per week; 2½ credits.

Prerequisite: Biology 300a.

403 **Animal Physiology** for Honor students; lectures, demonstrations and quizzes on the physiology of the blood, muscle and nerve, the circulation, respiration, lymph and digestion; a laboratory course on the physiology of the blood, muscle and nerve, the circulation and respiration.

3 lectures and 6 laboratory hours, first term; 6 credits.

3 lectures and 3 laboratory hours, second term; 4½ credits.

Prerequisites: Biology 300b.

PROFESSOR MILLER, Faculty of Medicine.

DEPARTMENT OF CHEMISTRY

PROFESSOR SLACK, MR. BEST AND MR. G. E. SMITH.

In all the courses in Chemistry a laboratory fee of \$2.00 is required; this is not returnable. For the two courses 21 and 22, when combined, the fee is \$3.00; not returnable. For each laboratory course a deposit of \$5.00 must also be made; this sum, minus deductions for breakages, is returnable at the end of the session. The fee shall be paid to the Bursar of the University; the deposit to the Head of the Department Chemistry.

10. **Inorganic Chemistry**; optional for first year students in the General Course; prescribed for first year students in the B.A., M.D. course. A course of experimental lectures and laboratory work upon the metallic and non-metallic elements and their principal compounds, and an introduction to the fundamental laws of chemistry. The laboratory work consists of experiments covering the principles discussed and demonstrated in the lectures.

2 lectures and 4 laboratory hours per week; 3 credits.

MR. BEST AND MR. SMITH.

Text-books: McPherson and Henderson, *A Course in General Chemistry*,
McPherson and Henderson, *Laboratory Manual to accompany
A Course in General Chemistry*.

20 Qualitative and Quantitative Analysis; optional for second year students in the General Course. This is a laboratory course covering the principles of Qualitative and Quantitative analysis; the laboratory work is largely individual in character, each student being required to work out a sufficient number of unknown compounds to ensure a working knowledge of the subject. Lectures bearing upon laboratory technique and new methods of analysis are given as required.

6 hours per week; 3 credits.

Prerequisite: Chemistry 10.

PROFESSOR SLACK AND MR. BEST.

Text-books: Prescott and Johnson, *Qualitative Chemical Analysis*.
Baskerville and Curtman, *Qualitative Analysis*.
Sutton, *Volumetric Analysis*.
Treadwell and Hall, *Quantitative Analysis*.

21 Qualitative and Quantitative Analysis; prescribed for second year students in the B.A., M.D. course and for second year students in the Honor course in Biology. The content of the course is practically the same as that of Chemistry 20.

6 laboratory hours per week; 3 credits.

Prerequisite: Chemistry 10.

PROFESSOR SLACK AND MR. BEST.

Text-books: See Chemistry 20.

22 Organic Chemistry; prescribed for second year students in the B.A., M.D. course and for second year students in the honor course in Biology. A course of lectures and demonstrations on the fatty hydrocarbons and their derivatives; the carbohydrates; proteins and alkaloids. Laboratory work consists of the preparation, identification and estimation of the simpler organic compounds, organic acids, alkaloids, etc.

2 lectures and 3 laboratory hours per week; 3 credits.

Prerequisites: Chemistry 10 and 20.

PROFESSOR SLACK AND MR. BEST.

Text-book: Remsen, *Organic Chemistry*.

30 Organic Chemistry; optional for third year students in the General Course. For a description of the contents of the course see Chemistry 22.

2 lectures and 3 laboratory hours per week; 3 credits.

Prerequisites: Chemistry 10 and 20.

PROFESSOR SLACK AND MR. BEST.

Text-book: Remsen, *Organic Chemistry*.

40 A course of lectures upon theoretical chemistry with advanced laboratory work in volumetric and gravimetric analysis. In the laboratory special attention will be given

to practical methods of analysis of numerous commercial products. Optional for fourth year students in the General Course.

2 lectures and 4 laboratory hours per week; 3 credits.

Prerequisites: Chemistry 10, 20, 30.

PROFESSOR SLACK, MR. BEST and MR. SMITH.

Text-books: Treadwell and Hall, *Quantitative Analysis*.
Alexander Smith, *General Inorganic Analysis*.

DEPARTMENT OF CLASSICS

PROFESSORS FOX, NEVILLE AND WALLER.

It is the aim of the instructors of this department to present the classical literatures as interpretations of ancient Greek and Roman life and thought, as portrayals of a civilization of which our own is but a later phase, and as comprising the sources and models of the various departments of modern literature. A thorough knowledge of the grammar and syntax of Greek and Latin will be required on the ground that they are indispensable instruments for the adequate comprehension of the literature and the correct writing of prose will be insisted upon as the best means of obtaining a command of these instruments. Great stress will be laid upon the student's power to read the classical literature independently and to produce accurate and finished translation. Much Latin and Greek will be read at sight in the exercises of the classroom and fifty per cent. of the marks obtainable on each examination of the pass courses in classics will be allotted to the translation of sight passages.

Latin

Each student in any of the Latin courses is required to have at least one of the following Latin grammars: Bennett, Allyn & Bacon, Boston; Allen and Greenough, Ginn and Company, New York; Gildersleeve & Lodge, Heath & Co., New York; and either Harper's Latin Dictionary, American Book Co., New York, or An Elementary Latin Dictionary, American Book Co.

DEPARTMENT OF HEBREW

PROFESSOR WALLER

The object of the course in Hebrew is chiefly to provide instruction for intending Theological students to enable them to read the Hebrew Bible with a thorough knowledge of grammar, pointing, and a general acquaintance with the Old Testament literature as a foundation for more advanced study of Semitic languages; but any student desiring a fuller acquaintance with the Old Testament is at liberty to choose the Hebrew options.

Every student must provide himself with a *Hebrew Bible*, Bagster's *Hebrew-English Lexicon* and Davidson's *Hebrew Grammar*, nineteenth edition, revised by McFadyen; earlier editions will not be permitted in the classroom. Third year students must have Davidson's *Hebrew Syntax*; advanced students are recommended to provide themselves with the *Oxford Hebrew Lexicon*.

DEPARTMENT OF MATHEMATICS

PROFESSOR PATTERSON

10 **Algebra:**—Variables, linear and quadratic functions of two variables, graphs, maximum and minimum values of quadratic functions of a single variable; linear and quadratic equations of two and three unknowns; elementary theory of quadratic equations; solutions of higher equations by means of quadratic equations; ratio and proportion; varia-

tion; inequalities; arithmetical, geometrical, and harmonic progressions; interest forms and annuities.

2 hours per week; 2 credits.

Prerequisites: Pass Junior Matriculation in Mathematics.

Text-book: DeLury, *An Intermediate Algebra*.

11 Geometry:—A more thorough treatment of the subject as found in the *Ontario High School Geometry, Part I*, together with an elementary treatment of the following: inscribed, escribed and circumscribed circles to a triangle; in-centre, mean-centre and orthocentre of a triangle; mean triangle, median triangle, pedal triangle, and ex-central triangle; circles determined by points, lines and circles; axes of symmetry, axes of homology; centres of symmetry and centres of homology; radical axis, radical centre; inversion, poles and polars; collinear points, concurrent lines; harmonic properties of quads; loci.

2 hours per week; 2 credits.

Prerequisites: Pass Matriculation in Mathematics.

Text-book: Hall and Stevens, *A School Geometry, Parts I-VI* (Macmillan Co.)

20 Algebra:—Sums of squares and of cubes of natural numbers, applications; scales of notation; simultaneous quadratic and cubic equations in two and three unknowns; imaginaries, indetermined coefficients; elimination; permutations and combinations; binomial theorem with applications.

2 hours per week; 2 credits.

Prerequisites: Mathematics 10 and 11.

Text-book: Hall and Knight, *Higher Algebra*, pp. 50-186 (Macmillan Co.)

21 Geometry:—Analytical Geometry of the point, the line and the circle.

1 hour per week; 1 credit.

Prerequisite Mathematics 10 and 11.

Text-book: W. M. Baker, *Algebraic Geometry, Part I* (Copp Clark Co.)

22 Trigonometry:—Trigonometrical ratios and their relations; values of ratios of common angles; formulas of circular measure; applications; ratios of the sum and difference of two angles with derived formulae; logarithms; solution of triangles with derivation of the necessary formulas; radii of inscribed, escribed and circumscribed circles to a triangle; perimeters and areas of inscribed and circumscribed regular polygons to a circle.

Prerequisite: Mathematics 10 and 11.

Text-book: Hall and Knight, *Elementary Trigonometry* (Macmillan Co.)

Honor Courses

100 Algebra:—As treated in Hall and Knight's *Higher Algebra*, pp. 187-340.

1 hour per week; 1 credit.

Prerequisites: Honor Matriculation in Mathematics or Mathematics 10, 11, 20, 21, 22.

References: C. Smith, *Treatise on Algebra* (Macmillan Co.)

103 Synthetic Solid Geometry.

1 hour per week; 1 credit.

Prerequisites: as for Mathematics 100.

Text-book: Dupuis, *Synthetic Solid Geometry* (Macmillan Co.)

104 Trigonometry; the subject as contained in Lock's *Higher Trigonometry* (The Macmillan Co.)

1 hour per week; 1 credit.

Prerequisite: as for Mathematics 100.

Reference: Hobson, *Plane Trigonometry* (Cambridge Press)

105 Elementary Differential and Integral Calculus.

1 hour per week; 1 credit.

Prerequisite: as for Mathematics 100.

Text-book: Cornville, *Differential and Integral Calculus* (Ginn & Co.)

200 Algebra:—The subject as treated in Hall and Knight's *Higher Algebra*, pp. 340-489, with special emphasis on

(a) The Theory of Determinants,

(b) The Theory of Equations.

2 hours per week; 2 credits.

Prerequisites: Mathematics 100.

DEPARTMENT OF PHILOSOPHY

DR. SAGE, MR. MACARTHUR AND MR.

20 Logic; Formal and Inductive: optional for students in the second year of the General Course.

1 hour per week; 1 credit.

MR.

Text-book: Jevons, *Elementary Lessons in Logic* (Macmillan Co.)

21 Psychology; Sensation, Thought, Emotion, Volition: optional for students in the second year of the General Course; prescribed for students in the High School Assistants Courses I and II.

1 hour per week; 1 credit.

DR. SAGE.

Text-books: Angell, *Psychology* (Holt),
 Stout, *Groundwork of Psychology* (Hinds, Noble).

30 History of Philosophy; prescribed for the students in the third year of the General Course; lectures, assigned reading and essays: Greek philosophy, with special reference

to Socrates, Plato, Aristotle; Pre-Kantian philosophy, especially Descartes, Spinoza, Leibnitz; English philosophy with special reference to Bacon, Hobbes, Locke Berkeley, Hume.

2 hours per week; 2 credits.

MR. MCARTHUR.

31 **Ethics**; the history of early modern ethics up to Kant; theory of obligation; applied ethics; prescribed for third year students in the General Course and in all the Honor Courses except Classics, Physics and Biology.

1 hour per week; 1 credit.

DR. SAGE.

Text-books: Mackenzie, *Manual of Ethics*.
D'Arcy, *A Short Study of Ethics*.
Dewey and Tufts, *Ethics*.
Sidgwick, *History of Ethics*.

32 **Psychology**; prescribed for all third year students in the B.A., M.D. course.

1 hour per week, first term; $\frac{1}{2}$ credit.

MR.

40 **Modern Philosophy**; lectures, prescribed reading and essays. An option for students in the fourth year of the General Course. The course deals with the following topics:—

I. German Philosophy, with special reference to Kant and his disciples.

II. English Philosophy; Mill and Spencer.

III. Most recent philosophic theories.

2 hours per week; 2 credits.

MR. MCARTHUR.

DEPARTMENT OF PHYSICAL AND MILITARY TRAINING

Director: **CAPT. G. MEL. BROCK.

Acting Director: CAPT. K. P. R. NEVILLE.

Instructor, Physical Training for Women: Miss
MONA H. FITZGERALD.

Student Assistant: A. W. SMITH.

Students are given a physical examination at the beginning of each session. Anthropometric charts are kept for each student. Corrective exercises will be prescribed where necessary.

10 **Physical Training for Women**. Required of all women students in the first year. Swedish Gymnastics, Calisthenics, simple folk and artistic dancing, basketball, swimming.

2 or 3 hours per week; 1 or $1\frac{1}{2}$ credits.

Tuesday and Thursday, 1.30, Gymnasium.

MISS FITZGERALD.

11 Physical Training for Men. Required of all men in the first year. Drills and exercises, outdoor and indoor games.

2 to 3 hours per week; 1 or 1½ credits.

Monday and Wednesday at 4.30, Gymnasium.

MR. SMITH.

12 Military Training. An alternative for Physical Training 11 for men of the first year. Squad, section, platoon and company drill.

2 or 3 hours per week; 1 or 1½ credits.

Tuesday, Thursday, Friday, 5-6, Armouries.

CAPT. NEVILLE and Assistants.

20 Physical Training for Women. Required of all women in their second year. Swedish Gymnastics, Calisthenics, advanced folk and artistic dancing, basketball, swimming and fencing.

2 or 3 hours per week; 1 or 1½ credits.

Tuesday and Thursday, 4.30, Gymnasium.

MISS FITZGERALD.

21 Physical Training for Men. Required of all men in the second year. Drills and exercises, outdoor and indoor games.

2 or 3 hours per week; 1 or 1½ credits.

Monday and Wednesday at 4.30, Gymnasium.

MR. SMITH.

22 Military Training. Optional with 21 for all men in their second year. Practice in instruction in squad, section, platoon and company drill. Preparation for the efficiency test for certificates for lieutenants in the Canadian Militia.

2 or 3 hours per week; 1 or 1½ credits.

Prerequisite: Physical and Military Training 12.

Tuesday, Thursday, Friday, 5-6, Armouries.

CAPT. NEVILLE and Assistants.

30 Advanced Physical Training for Women. Optional for women of the third and fourth years. Open to those only who have had Physical Training 10 and 20.

2 hours per week; 1 credit.

MISS FITZGERALD.

32 Military Training. Optional for men in their third year. Practice in instruction in squad, section, platoon and company drill, as non-commissioned officers in the University contingent.

Lectures and theory of the work laid down for certificate for lieutenants in the Canadian Militia.

3 to 5 hours per week; 3 credits.

Prerequisite: Physical and Military Training 22.

42 Military Training; an option for men in their fourth year; practice, lectures, theory of the work laid down for captains' certificates in Canadian Militia.

5 hours per week; 3 credits.

Prerequisite: Physical and Military Training 32.

DEPARTMENT OF PHYSICS

PROFESSOR BARKER

10 Mechanics, Heat, Sound: A presentation of the general principles without extensive mathematical applications. Optional for first year students in the General Course.

2 lectures and 3 laboratory hours per week; 3 credits.

Text-books: Franklin and McNutt, *General Physics*.

Reed and Guthe, *College Physics*.

Aldous, *Elementary Course of Physics*.

12 General Physics: An introductory course of demonstrations and lectures, supplemented by practical work in the laboratory; prescribed for first year students in the College of Medicine.

2 lectures, 3 laboratory hours per week; 3 credits.

Text-books: See Physics 10.

20 Light, Electricity and Magnetism; supplementary to 10 and similar in scope. Optional for second year students in the General Course. Trigonometry, including logarithms, must be taken previously or simultaneously.

2 lectures, 3 laboratory hours per week; 3 credits.

Prerequisites: Physics 10.

Text-books: See Physics 10.

30 Physical measurements; lectures on laboratory methods and practical work with emphasis on precision; optional, with 31, for third year students in the General Course.

3 laboratory hours per week; 1 credit.

Prerequisites: Physics 20.

31 Electrical Measurements. Lectures and practical work illustrating various methods of measurement and comparison of fundamental electrical quantities. Optional with 30, for third year students in the General Course.

3 laboratory hours per week; 1 credit.

Prerequisites: Physics 20.

40 Electromagnetic Theory and Practice. Lectures and laboratory work introducing the fundamental phenomena of direct and alternating currents, with a study of commercial types of motors, generators, transformers and rectifiers, involving elementary applications of calculus. Optional for fourth year students in the General Course.

2 lectures, 3 laboratory hours per week; 3 credits.

Prerequisites: Physics 31, Mathematics 102 and 105.

Honor Courses

100 Light, Electricity and Magnetism. The general principles of fundamental importance with mathematical treatment involving a knowledge only of trigonometry and logarithms; similar to 20. Prescribed for first year students in the Honor Physics and Mathematics Courses and for second year students in the B.A., M.D. and in the Honor Biology Courses.

2 lectures, 3 laboratory hours per week; 3 credits.

Prerequisites: Physics 10 or an equivalent.

101 Physical Measurements; similar to 30; prescribed for students in the first year of the Honor Physics and Mathematics Courses.

3 laboratory hours per week; 1 credit.

102 Mechanics, Heat and Sound. Fundamental principles without extensive mathematical applications; prescribed for first year students in the B.A., M.D. and the Honor Biology Courses.

2 lectures, 3 laboratory hours per week; 3 credits.

Prerequisites: Physics 10 or an equivalent.

200 Elements of Mechanics; a mathematical treatment introducing numerous applications of physical principles. Prescribed for the second year students in the Honor Physics and Mathematics Courses.

2 lectures per week; 2 credits.

Prerequisites: Physics 100, 101.

Text-books: Jeans, *Mechanics*.
Crew, *Principles of Mechanics*.

201 Geometrical and Physical Optics. A more advanced treatment of theoretical and applied optics, including an historical treatment of the development of the modern conceptions of light. Prescribed for second year students in the Honor Physics and Mathematics Courses.

2 lectures per week; 2 credits.

Prerequisites: Physics 100, 101.

Text-books: Wood, *Physical Optics*.
Houston, *Light*.

300 Advanced Mechanics; a continuation of 200 making use of calculus and simple differential equations; prescribed for third year students in the Honor Physics and Mathematics Courses. Offered in alternate years.

2 lectures per week; 2 credits.

Prerequisites: Physics 200, 201.

301 Principles of Electricity and Magnetism. An historical and mathematical treatment; prescribed for third year students in the Honor Physics Course. Offered in alternate years.

2 lectures per week; 2 credits.

302 Electrical measurements; similar to 31. Prescribed for third year students in the Honor Physics and Mathematics Courses.

3 laboratory hours per week; 1 credit.

Prerequisites: Physics 200, 201.

303 Spectroscopy and Radiation; an introduction to modern conceptions in spectroscopy and high temperature measurements. Prescribed for third year student in the Honor Physics Course. Offered in alternate years.

3 hours per week in laboratory, 1 credit.

Prerequisites: Physics 200, 201.

304 Wave Motion and Oscillatory Phenomena; an elementary treatment of Fourier's analysis and the mathematics of wave motion. Prescribed for third year students in the Honor Physics Course.

1 lecture per week; 1 credit.

Prerequisites: Physics 200, 201.

400 Mathematical Theory of Potential with applications. Prescribed for fourth year students in the Honor Physics and Mathematics Courses. Offered in alternate years.

2 lectures per week; 2 credits.

Prerequisites: Physics 300-304.

401 Electromagnetic Theory and Practice; similar to 40. Prescribed for fourth year students in the Honor Physics Course.

2 lectures, 3 laboratory hours per week; 3 credits.

Prerequisites 300-304.

402 Elementary Thermodynamics and Theory of Gases. Prescribed for fourth year students in the Honor Physics and Mathematics Courses. Offered in alternate years.

2 lectures per week; 2 credits.

Prerequisite: Physics 300-304.

403 Electron Theory of Matter and Electromagnetic Theory of Light. A study of the development of some recent ideas concerning matter and energy. Prescribed for fourth year students in the Honor Physics and Mathematics Courses.

1 lecture per week; 1 credit.

Prerequisite: Physics 300-304.

DEPARTMENT OF POLITICAL ECONOMY

PROFESSOR WOOD; MR. PERRIN.

Political Economy

20 The Elements of Political Economy. Lectures, assigned reading; essays will be required as term work from all students.

3 hours per week; 3 credits.

PROFESSOR WOOD.

Text-books: G. Gide, *Principles of Political Economy*.

F. W. Taussig, *Principles of Economics*.

C. J. Bullock, *Selected Readings in Economics*.

J. G. Bartholomew, *Advanced Economic Atlas*.

References: The Works of Adam Smith, Ricardo, Mill, Marks, Boehm-Bawerk, Marshall, Smart, Nicholson, Ely, etc.

30 Discussion of the following subjects: Money, Banking, Domestic and Foreign Exchange, Public Finance, Taxation, Statistical Methods. Lectures, assigned reading; essays will be required from all students.

3 hours per week; 3 credits.

Prerequisite: Political Economy 20.

PROFESSOR WOOD.

Text-books: D. A. Barker, *Theory of Money*.

J. F. Johnson, *Money and Currency*.

Canada and Its Provinces, Vol. 10.

G. C. Plehn, *Introduction to Public Finance*.

E. R. A. Seligman, *Essays on Taxation*.

Canada and Its Provinces (Selected portions).

40 Discussion of (a) The History of Economic Theories, (b) Labor Conditions and Problems, (c) Principles of Transportation. Lectures; assigned readings; essays as term work from all students.

3 hours per week; 3 credits.

Prerequisite: Political Economy 30.

PROFESSOR WOOD.

Text-books: J. K. Ingram, *History of Political Economy*.

F. T. Carleton, *History and Problems of Organized Labor*.

E. R. Johnson, *Elements of Transportation*.

200 This course is an expansion of Political Economy 20 (*q. v.*); Honor standing will be required.

201 **Industrial History of Canada Since Confederation.** Lectures, readings, essays.
2 hours per week; 2 credits.

PROFESSOR WOOD.

Text-book: *Canada and Its Provinces*, Vol. 9.

300 This course is a repetition for honor students of Political Economy 30.

301 **The Economic History of Great Britain**, various European countries and the United States of America. Lectures, prescribed reading; essays as term work.
2 hours per week; 2 credits.
Prerequisite: Political Economy 200, 201.

PROFESSOR WOOD.

Text-books: M. Briggs, *Economic History of England*
H. de B. Gibbons, *History of Commerce in Europe*.
K. Coman, *Industrial History of the United States*
Bland, Brown & Tawney, *English Economic History, Select Documents*
References: W. Cunningham, *Outlines of English Industrial History*

400 **The History of Economic Theories from the Middle Ages.** Essays, lectures, reading.
Text-book: J. K. Ingram, *History of Political Economy*.

401 **Labor Conditions and Problems. Socialism, Syndicalism.** Lectures, prescribed reading, essays.
Text-books: O. D. Skelton, *Socialism, A Critical Analysis*.
F. F. Carleton, *History and Problems of Organized Labor*.

402 **Transportation; lectures, reading and essays.**

Text-books: E. R. Johnson, *Elements of Transportation*.
L. G. Macpherson, *Transportation in Europe*.

403 **International Trade and Tariff Systems.** Lectures, assigned reading, essays.

Text-books: C. F. Bastable, *Theory of International Trade*.
G. M. Fisk, *International Commercial Policies*.

404 **Problems of Distribution.** Lectures, reading and essays.

Text-book: J. R. Commons, *Distribution of Wealth*.

Government and Law

305 **Roman Law.** A review of the customary law of the regal period at Rome, with a short history of the law from the time of the Decemviri to the death of Justinian, giving also an account of the growth of the unwritten law, praetor's edict, the formulary system, the *ius naturae*, the

legislation during the Republic and under the Empire and the Justinian Code.

1 hour per week; 1 credit.

Prerequisite: Law 200.

MR. PERRIN.

Text-book: Sanders, *The Institutes of Justinian*.

306 English Law. The law before the Norman Conquest, the Saxon Invasion, and the changes wrought by the Conqueror and his successors. The growth of the Feudal System and the changes introduced by the Legislation of Henry II, Edward I and Edward III.

1 hour per week; 1 credit.

Prerequisite: Law 200.

MR. PERRIN.

Text-books: Pollock and Maitland, *History of English Law*, Vol. I.

Storrey-Deans, *Students' Legal History*.

307 Jurisprudence. General and Historical Jurisprudence, the analysis of law and of rights, the sources of law, a general classification of rights, adjective private law, public law and its various divisions.

1 hour per week; 1 credit.

Prerequisite: Law 200.

MR. PERRIN.

Text-books: Holland's *Elements of Jurisprudence*.

Sir Henry Maine's *Ancient Law*.

405 English Constitutional Law. The law of the English Constitution, with a sketch of the two Houses of Parliament, the Prerogatives, the Conventions, Courts.

1 hour per week; 1 credit.

Prerequisite: Law 300-307.

MR. PERRIN.

Text-books: Dicey, *Law of the Constitution*.

Anson, *Law and Custom of the Constitution*.

406 Federal Constitutional Law. The leading features of Federal Government as exhibited in the most prominent Federal States. Constitutions of Canada, Australia, Switzerland and the United States.

1 hour per week; 1 credit.

Prerequisite: Law 300-307.

MR. PERRIN.

Text-books: Lefroy, *Federal System and Leading Cases in Federal Constitutional Law*.

Woodrow Wilson, *Congressional Government*.

407 Colonial Constitutional Law. The various forms of Colonial Government, with special reference to the self-governing colonies.

1 hour per week; 1 credit.

Prerequisite: Law 300-307.

MR. PERRIN.

Text-book: Todd, *Parliamentary Government in the Colonies* (to p. 318.)

408 Public International Law. The essential principles are discussed and special reference made to current illustrations.

1 hour per week; 1 credit.

Prerequisite: Law 300-07.

MR. PERRIN.

Text-book: Westlake's International Law.

DEPARTMENT OF PUBLIC HEALTH AND BACTERIOLOGY

DIRECTOR HILL AND DR. LUNEY.

10 A Series of fifteen lectures is given to students of the first year dealing with public health, preventive medicine and hygiene, and describing the essentials of bacteriology so far as applicable to modern life. The modern methods of handling and prevent infections diseases, the hygiene of water, milk, food, and flies; the physiological principles involved in and the significance of ventilation, foods and feeding, water supplies, sewage disposal, vital statistics, infant mortality, etc., are included. All subjects are so treated from a practical standpoint as to outline the principles and show the general methods based upon them. Technicalities are avoided, the aim being not to train public health specialists but to give such information as any educated person should have concerning the great advances of modern public health in order that he or she may be able to understand and fit in with them. The ordinary infectious diseases are described as to their appearance and symptoms so far as would be useful in the ordinary life of a private citizen.

1 hour per week; 1 credit.

DEPARTMENT OF ROMANCE LANGUAGES

PROFESSOR LIVINGSTON, MISS BAYNES.

French

The object of the general course is to perfect the student with junior matriculation in the use of French as an instrument of study in connection with other subjects and as an instrument of culture. It aims at developing a facile and intelligible pronunciation of French, ability to understand spoken French, rapid reading, some control over the spoken language, a general view of French literature (from the reading in French of an elementary history of French Literature). The pass courses are all in charge of Miss Baynes, and are conducted entirely in French.

The Honor Course

The Honor course aims at developing in the student (1) an intelligible and facile pronunciation of French; (2) a knowledge of grammar and syntax required for teaching the elements of the language; (3) a rapid and accurate ability in reading French of various styles; (4) sufficient familiarity with the content of French literature and the terminology of criticism and literary history for beginning graduate work in Canadian or American universities. About one-third of the work is devoted to grammar and composition. The courses are conducted to a large extent in French. Notable deficiency in pronunciation at the end of the first year will bar the student from continuing the honor course.

In course 200 the aim is to make the student familiar with the concepts "classic" and "romantic" and with the history and critique of these two theories. Course 300 deals with three personalities of the seventeenth century. Course 400 deals with a number of characteristic French ideals. Honor students are expected to provide themselves with a general view of the history of French literature by reading in English some text-book on the subject, and a certain number of English translations of French works, especially of the Medieval period.

STUDENT ORGANIZATIONS

THE ATHLETIC ASSOCIATION

The Executive of the Western University Athletic Association, the governing body in all athletic activities, is composed of one representative appointed by the Board of Governors, the President of the University ex officio, one professor from the College of Arts and one from the Medical School, two students from the College of Arts, and two from the Medical School, and a secretary-treasurer, who is a member of the Faculty. Meetings are held every Monday during the academic year. The student representatives are elected by the votes of the students and are responsible to the students for the performance of their executive duties. This Executive grants colors, crests and letters, handles all athletic finances, and arranges and controls interfaculty contests in football, hockey, track, basketball and tennis. Games are arranged with other universities and outside clubs. The supervision of the gymnasium is also under the control of this executive.

January 1, 1915, permission was granted for the organization of a contingent of the Canadian Officers' Training Corps in connection with Western University, under the command of Major T. J. Murphy of the Board of Governors. Since that the work of the corps has attracted a large number of students and many have been able to qualify for lieutenant's commissions in the militia and a few for captain's. Fifty per cent. of the members who have been enrolled have gone overseas. No. 10 Stationary, Western University Hospital attracting more students than any other unit and taking with it the senior captain of the contingent, G. Mel Brock of the Faculty of Arts.

The number of students to whom military work will appeal will probably be small next year as it has been for several seasons past because of the small number of men in the University; the citizens who have taken up the work of the corps have made the last season profitable. The corps is extremely fortunate in being in the headquarters city of Military District 1, where it can avail itself of the superb instruction offered to the regular infantry schools by Captain J. N. Cantin, Q.M.S.I. Thieme Sergeants Walsh, Graham and Dace. In the past, the relationship with these instructors has been so cordial that they have gone out of their way to assist the corps at every turn. Besides the officers there are enrolled in the unit this year seventy men. The officers are: Major, T. J. Murphy; Captains, K. P. R. Neville and G. F. Copeland; Lieutenant, W. H. W. Shosenberg.

APPENDIX

THE MEDICAL SCHOOL

The thirty-seventh session of the Medical School of the
Western University will begin on September 30, 1918.

Examinations for the removal of conditions will be given on September 28, and lectures will begin on October 1.

Work in Physiology, Pharmacology and Anatomy is conducted by full-time men in the Medical School Building, where much new equipment has been provided for work in these departments. Work in Public Health, Pathology, Bacteriology, Chemistry and Physics is carried on at the Institute of Public Health by full-time men.

Excellent opportunity is afforded at Victoria Hospital for the study of diseases common to this climate and for work in Surgery and Gynecology. Material for bedside teaching is also available at St. Joseph's Hospital, the Hospital for the Insane and the Alexandra Sanatorium. Unusual facilities for the teaching of Practical Obstetrics are afforded in the Salvation Army Maternity Hospital and in the Lying-in-Ward of Victoria Hospital.

A certificate of having passed the Junior Matriculation Examination conducted by the Education Department of Ontario is required for entrance into the Western University Medical School.

The course of study leading to the Degree of M.D. will be lengthened by one year so as to include six years of work, beginning with the session of 1919-20.

For the session of 1918-19 the number of students entering on the work of the first year will be limited to twenty-five. Blanks to be used in application for registration, the Annual Announcement, or any other information concerning the Medical School may be obtained by addressing the Secretary of the Western University Medical School, or the Registrar of Western University, London, Ontario.

THE INSTITUTE OF PUBLIC HEALTH

The Institute of Public Health has been established by the Ontario Government and is maintained by a provincial appropriation under the control of the Board of Governors of Western University. In the Institute laboratories are performed the public health analyses for the western part of the Province. These consist of certain examinations in connection with diphtheria, tuberculosis, typhoid fever and rabies, and with water, sewage, milk, etc., which the Provincial Board of Health has arranged to have done free of charge. Other work is performed for physicians at a nominal fee. Analyses for industrial and commercial purposes are also undertaken. Besides doing public health and laboratory work, the staff of the Institute avail themselves of opportunities for the instruction of the public in all

matters relating to the prevention of disease and the promotion of health, by lecturing before various clubs and societies.

The Institute is organized into divisions, the heads of which act as the heads of corresponding departments in the University. Through this connection, the students in Arts receive their instruction in Public Health, Bacteriology and Chemistry in the Institute laboratories. The course in Public Health and Bacteriology aims to furnish knowledge of very practical value to the individual and to render more comprehensible to the student the modern efforts to improve the public health.

HURON COLLEGE

Huron College was founded in 1863 for training men for the ministry of the Church of England. Through its efforts the original charter of the University was secured, and through many vicissitudes preserved, until in 1908 the City of London, undertook to contribute annually to the maintenance of the College of Arts, when Huron College became an affiliated institution under entirely separate management.

For conditions of entrance and courses of study, application should be made to the Principal, Huron College, London.

Degrees in Divinity, B.D., D.D., can be conferred by the Western University only on the recommendation of an affiliated theological college.

Huron Theological College is in the federation of all the Theological Colleges of the Church of England in Canada, organized under a canon of the General Synod for the purpose of maintaining a uniform standard and conducting the examinations for these degrees. The examinations are held annually in October. Certificates of Standing obtained in the University on any of the prescribed work, e.g. Hebrew, are accepted *pro tanto*.

A schedule of the work required for either degree can be obtained from Rev. Professor C. Abbott-Smith, D.D., Secretary of the Board, Ingleholm, Bellevue Avenue, Westmount, Quebec.
